Special Notice Regarding IDOT Proposals and Authorization To Bid.

ABOUT IDOT PROPOSALS

All proposals issued by IDOT are potential bidding proposals. Each proposal contains all Certifications and Affidavits, a proposal signature sheet and a Proposal Bid Bond required for a Prime Contractor to submit a bid after written AUTHORIZATION TO BID has been issued by IDOT. A Proposal Bid Bond is not required on items designated as Small Business Set-Asides.

ABOUT AUTHORIZATION TO BID

WHO CAN BID? Bids will be accepted from only those companies that **request and receive** written **Authorization to Bid** from IDOT. To request authorization, a potential bidder must complete and submit Part A of the Request for Authorization to Bid/or Not For Bid Status for ([BDE 124](#)).

WHAT CONSTITUTES AUTHORIZATION TO BID? When a prospective prime bidder submits a BDE 124 and the Affidavit of Availability ([BC 57](#)), he/she must indicate at that time which items are being requested for bidding purposes. Only those items requested For Bidding will be analyzed. After the request has been analyzed, the bidder will be issued an **Authorization To Bid or Not For Bid Report** that indicates which items have been approved for bidding. If **Authorization to Bid** cannot be approved, the **Authorization To Bid or Not For Bid Report** will indicate the reason for denial.

FIRMS UNSURE AS TO AUTHORIZATION STATUS? Firms that have not received an authorization form within a reasonable time of complete and correct original document submittal should contact the department as to status. This is critical in the week before the letting. These documents must be received by three days before the letting date. Firms unsure as to authorization status should call the Prequalification Section of the Bureau of Construction at 217/782-3413.

NOTICE

NO AUTHORIZATION TO BID WILL BE ISSUED UNTIL A **COMPLETED PART A OF FORM BDE 124** AND THE **ORIGINAL** AFFIDAVIT OF AVAILABILITY HAS BEEN FILED WITH THE CENTRAL BUREAU OF CONSTRUCTION.

FOR SMALL BUSINESS SET-ASIDES, THE AFFIDAVIT OF AVAILABILITY (BC 57) IS NOT REQUIRED.

SPECIAL NOTICE

The Department strongly encourages the prime contractor and their approved sub-contractors to hire minority, women and disadvantaged individuals from its federally funded Highway Construction Careers Training Program (HCCTP) to help meet workforce and trainee goals. This program is training minorities, women and disadvantaged individuals in highway construction-related skills, e.g., math for the trades, job readiness, technical skills coursework (carpentry, concrete flatwork, blueprint reading, site plans, site work, tools use, etc.) and OSHA 10 hour certification, to prepare them for a career in the highway construction trades. Graduates are well-trained and ready to become productive entry-level construction workers. Contact the appropriate district EEO officer to learn more about the program and for assistance in meeting workforce and trainee goals.

SPECIAL NOTICE

Please discontinue faxing your Affidavit of Availability with your Request for Authorization to Bid/or Not For Bid Status request.

We are required to use only the *Original* Affidavit of Availability to determine a contractor's authorization to bid. This document has a notarized signature and we must have the *original signature* prior to processing your request. The faxed copies are not being looked at and are just generating excess paper that we have to destroy.

Thank you for your cooperation in this matter.

If you have questions please contact Jim Layden at (217) 782-7806 or Jim.Layden@illinois.gov.

SPECIAL NOTICE

SPECIAL NOTICE

IMPORTANT NOTICE FOR ALL ILLINOIS CONTRACTORS/CONSULTANTS

The Procurement Communication Reporting requirements of Public Act 96-0795 and Public Act 96-0920 (Senate Bill 51 and Senate Bill 3576) became effective on January 1, 2011. The new law requires the following communications to be reported to the Procurement Policy Board (PPB):

- Communication that suggests a change or asks for a change to be made to a procurement matter.
- Communication regarding a change order, contract renewal or extension, and contract awards for a procurement matter initiated by a vendor.

In addition, a vendor is prohibited from bidding on or entering into a contract if the vendor:

- Assisted the agency in determining a need for a contract (except as part of a public Request for Information).

- Communications initiated by a vendor regarding construction or construction-related contracts resulting in a contract modification of less than \$250,000.

In order to conform to these new requirements, please note that IDOT intends to fully report the substance of any reportable procurement communications to the PPB through a web application developed by Central Management Services. The law requires the PPB to post all communications received on their website within 7 days of receipt of the report.

It is important to understand that all communications received by IDOT employees from vendors will be handled in compliance with the new law. This means that any phone calls, face-to-face conversations, e-mails, or other types of communications that trigger reporting will be fully reported to the PPB in accordance with the law and will ultimately be made public on the [PPB Internet Site](#).

SPECIAL NOTICE

Clarification of Reconsideration for DBE Utilization Plans

All prime contractors please take note that the DBE utilization plans, both forms SBE 2025 and SBE 2026, are required to be submitted with the bid on all construction contracts that contain a specified goal in the special provision for Disadvantaged Business Enterprise Participation. Based on recent FHWA clarification, the DBE Special Provision has been updated to clarify what conditions warrant providing the bidder an opportunity for an administrative reconsideration and what documentation may be provided during the reconsideration process.

Under the DBE Special Provision the bidder must either document that it has obtained enough DBE participation to meet the contract DBE goal or, in the event that the bidder has not obtained enough DBE participation to meet the contract DBE goal, documented good faith efforts. If the Department determines that the apparent low bidder has either failed to achieve the contract DBE goal or failed to provide sufficient documentation of its good faith efforts, the bidder will be afforded an opportunity for an administrative reconsideration at which time additional written documentation or argument of the bidder's good faith efforts made prior to the bid may be submitted.

The additional documentation that may be provided and considered during the reconsideration should be limited to information further supporting the bidder's original submittal. In limited cases, where a bidder had genuinely thought it had achieved the DBE goal but a review of the Utilization Plan establishes that the goal was not met, the bidder may submit documentation of its good faith efforts that were made prior to submitting its bid. Allowing additional documentation to be submitted during an administrative reconsideration is not intended to be a method by which a bidder may circumvent the intent of the regulations and the DBE Special Provision by withholding required documentation until the time of a reconsideration proceeding. It is also not intended to allow a bidder to wait until after submitting a bid, but in advance of the reconsideration proceedings, to begin making good faith efforts to meet the goal.

SPECIAL NOTICE

RULE FOR SUBMITTAL OF DBE UTILIZATION PLANS

All prime contractors please note that a complete DBE Utilization Plan includes forms [SBE 2025](#) and [SBE 2026](#).

Both forms are required to be submitted with the bid on all construction contracts that contain a specified goal in the special provision for Disadvantaged Business Enterprise Participation.

Bids that do not have a DBE Utilization Plan as required by special provision will be rejected.

- SPECIAL NOTICE REGARDING DISADVANTAGED BUSINESS ENTERPRISE PARTICIPATION -

1. Disadvantaged Business Enterprise (DBE) Utilization Plan

For proposals that contain a Special Provision for Disadvantaged Business Enterprise Participation **it is the responsibility of each bidder to submit a DBE Utilization Plan (Plan)** ([Form SBE 2026](#) and [Form SBE 2025](#)) as required by the Special Provision. Forms for the submittal of the Plan are available on the IDOT Web Site, in each district's Bureau of Construction office or by calling IDOT's Bureau of Small Business Enterprises at (217) 782-5490.

DBE Plan submittal - As detailed in the Special Provision entitled "DISADVANTAGED BUSINESS ENTERPRISE PARTICIPATION (BDE)"; all bidders must submit [Form SBE 2026](#) and [Form SBE 2025](#) with their bid at the Letting. **Failure to submit both forms with the bid shall cause the bid to be rejected as not responsive.**

SEE THE SPECIAL PROVISIONS WITHIN THE PROPOSALS FOR SPECIFIC DBE GOAL PERCENTAGES

2. Illinois Unified Certification Program DBE Directory

Pursuant to the requirements of the federal regulations, all state transportation agencies that receive federal-aid funds are required to implement a "one-stop" certification process for DBEs. As a result of this requirement, IDOT, together with the City of Chicago, CTA, Metra and Pace, has established the Illinois Unified Certification Program (IL UCP).

The IL UCP maintains a DBE Directory to provide a reference source to assist bidders/proposers in meeting DBE contract goals. The DBE Directory lists the DBE-certified firms in alphabetical order with their address, contact information and specialty of work. It is the responsibility of the prime contractor/consultant to make his/her own determination regarding the capability of a DBE firm. Only those firms certified as of the letting date/bid opening may be utilized in meeting a DBE contract goal.

3. Supportive Services Consultants

IDOT's Office of Business and Workforce Diversity's Bureau of Small Business Enterprises administers the federal Disadvantaged Business Enterprise (DBE) program. The goal of IDOT's DBE Supportive Services program is to provide assistance that fosters opportunities for DBE firms to participate in IDOT's transportation-related contracts.

IDOT contracts with outside consultants to provide its DBE firms with **management** and **technical** supportive services assistance. This assistance is provided at no cost to IDOT's DBE firms, to those firms seeking IDOT DBE program certification, to IL UCP DBE-certified firms who hold (or are bidding on) IDOT contracts, and to prime contractors doing business with IDOT.

Management assistance includes, but is not limited to, assistance with cash flow, bonding and financing, obtaining work/equipment/other resources, obtaining payments for work completed, preparation of business plans, computer technology, certification/prequalification application assistance, assessment of management/accounting/computer systems, assistance with loan package preparation, development of web site/marketing materials/safety plans, and IDOT DBE workshops on various topics.

4. FDIC Definition of Minority Depository Institution

Section 308 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 ("FIRREA") requires the Secretary of the Treasury to consult with the Director of the Office of Thrift Supervision and the Chairperson of the FDIC Board of Directors to determine the best methods for preserving and encouraging minority ownership of depository institutions. Section 308 of FIRREA defines the term "minority depository institution" as any depository institution where 51 percent or more of the stock is owned by one or more "socially and economically disadvantaged individuals."

Given the ambiguous nature of the phrase "socially and economically disadvantaged individuals," the FDIC's Policy Statement defines "minority depository institution" as any Federally insured depository institution where 51 percent or more of the voting stock is owned by minority individuals. "Minority" as defined by Section 308 of FIRREA means any "Black American, Asian American, Hispanic American, or Native American." The voting stock must be held by U.S. citizens or permanent legal U.S. residents to be counted in determining minority ownership.

In addition to institutions that meet the ownership test, institutions will be considered minority depository institutions if a majority of the Board of Directors is minority **and** the community that the institution serves is predominantly minority. Institutions that are not already identified as minority depository institutions can request to be designated as such by certifying that they meet the above definition. Institutions interested in self-certification should contact the National Coordinator of the FDIC's Minority Depository Institutions Program.

As of March 18, 2014, the list of Minority Depository institutions in Illinois are as follows:

REVISIONS TO THE ILLINOIS PREVAILING WAGE RATES

The Prevailing rates of wages are included in the Contract proposals which are subject to Check Sheet #5 of the Supplemental Specifications and Recurring Special Provisions. The rates have been ascertained and certified by the Illinois Department of Labor for the locality in which the work is to be performed and for each craft or type of work or mechanic needed to execute the work of the Contract. As required by Prevailing Wage Act ([820 ILCS](#) 130/0.01, et seq.) and Check Sheet #5 of the Contract, not less than the rates of wages ascertained by the Illinois Department of Labor and as revised during the performance of a Contract shall be paid to all laborers, workers and mechanics performing work under the Contract. Post the scale of wages in a prominent and easily accessible place at the site of work.

If the Illinois Department of Labor revises the prevailing rates of wages to be paid as listed in the specification of rates, the contractor shall post the revised rates of wages and shall pay not less than the revised rates of wages. Current wage rate information shall be obtained by visiting the Illinois Department of Labor web site at <http://www.state.il.us/agency/idol/> or by calling 312-793-2814. It is the responsibility of the contractor to review the rates applicable to the work of the contract at regular intervals in order to insure the timely payment of current rates. Provision of this information to the contractor by means of the Illinois Department of Labor web site satisfies the notification of revisions by the Department to the contractor pursuant to the Act, and the contractor agrees that no additional notice is required. The contractor shall notify each of its subcontractors of the revised rates of wages.
